

## Masks Assignment

- Design 2 masks that show the different faces you present to society.
- On one mask (the “outer” mask), represent the faces you show your friends, family, teachers, etc. You can represent these faces with pictures, poetry, words, slogans, song lyrics, colours, phrases, etc.
- On the other mask (the “inner” mask), show who you really are when no one is looking. Again, you may represent your inner self in any way you like.
- On the outer mask you may have pieces of your true self, but you may also have misrepresentations. For example, you may behave in an outgoing manner at a party with your friends, but you may actually feel somewhat shy. You may be sweet and innocent in front of your parents, but swear when you are with your friends.
- On an attached sheet of loose leaf paper, write a 250 word explanation of your two masks and what the various pictures/symbols/words represent.
